Fundamental questions  
Elemental answers

Since 1876, we have been promoting the work of the analytical chemistry community. Fundamental or applied, the research we publish is discoverable, read and cited all over the world.

Analyst's broad scope brings analytical chemistry to the forefront of the chemical sciences and related industries. Led by Norman Dovichi, our international editorial board and associate editors are highly regarded across the community. Their knowledge and expertise ensure rigorous editorial practices and fast publication times.

Analytical chemistry makes significant contributions to many diverse scientific fields and industries. Research in Analyst is evidence of this.

### **Editor-in-Chief**

**Norman Dovichi** University of Notre Dame, USA

Impact factor 2021: 5.227, median time to first decision (peer reviewed articles only): 27 days.
